## Experience | 3 years

---

### OrthoFX | Kochi, Kerala

#### Full Stack Developer | Angular + Java | 09/2020 - 02/2023

- **Talent Acquisition Leadership:** Directed technical interviews focusing on logical aptitude and coding skills, significantly contributing to the recruitment of high-caliber talent essential for OrthoFX's expansion. Demonstrated expertise in talent evaluation and acquisition strategies.
- **Web Performance Optimization Expert:** Led initiatives that achieved a 15% improvement in clinical report loading times via parallel stream rendering, demonstrating advanced skills in user experience enhancement and web optimization.
- **Frontend Development Lead:** Oversaw the Angular-based transformation of treatment forms, significantly elevating doctor satisfaction and optimizing patient care processes. Highlighted proficiency in frontend development and process improvement.
- **Financial Solution Innovator:** Successfully integrated FXPay financing using Stripe, achieving a 40% boost in customer retention. Played a pivotal role in implementing financial solutions that contributed to business growth and customer satisfaction.
- **Full-Stack Development Specialist:** Demonstrated excellence in Agile full-stack web development, employing Java and Angular to develop responsive applications and RESTful APIs in line with industry standards, ensuring efficient, secure data exchange.
- **Business Model Transformation Contributor:** Key player in evolving OrthoFX from a clinical to a DSO-level business model, resulting in an 8% increase in doctor engagement and a 7% rise in patient sign-ups. This strategic shift significantly broadened the company's global footprint and market impact.

### Lords FC, Kochi | Kochi, Kerala

#### Freelance Web Developer and Administrator | 03/2020 - 06/2023

- Developed and maintained the responsive website for LordsFC Kochi, a premier football club competing at the highest district level. Leveraged PHP, HTML, and CSS to create a dynamic online presence. Initiated domain purchase and hosting through GoDaddy, demonstrating a holistic approach. As a former player, combined technical expertise with a deep understanding of the club's needs. Highlights include proactive maintenance and continuous improvements for an optimal user experience.

## Skills

---

Full-Stack Development, Backend Development (JAVA, Springboot), Front-End Development (Angular, Typescript), SQL (Structured Query Language), RESTful APIs

## Education

---

### Govt. Model Engineering College, Kochi | Kochi, Kerala

#### BTech in Computer Science and Engineering | 05/2020

- **Computer Science Excellence with Practical Application:** Graduated with a solid foundation in Computer Science, mastering algorithms, data structures, and software engineering methodologies. Demonstrated exceptional problem-solving and analytical abilities through coursework and practical projects, including the development of an AI-powered legal assisting web app utilizing natural language processing for efficient legal research. Actively engaged in hackathons and coding competitions, showcasing technical proficiency and innovative thinking.

### Viswajyothi CMI Public School | Kochi, Kerala

#### High Secondary Education | 03/2016

- **Academic and Sports Excellence:** Achieved a notable 92% in CBSE 12th standard, excelling in a rigorous science curriculum including Physics, Chemistry, Computer Science, and Mathematics, while demonstrating leadership and teamwork as an integral member of the school's football team, actively participating in interschool tournaments.
